The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/582,487	<b>Applicant(s)</b> KARLSSON, PER	
	<b>Examiner</b> Andrew J. Triggs	<b>Art Unit</b> 3635	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
2. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art teaches the combination of a construction board with a cage and a telescoping screw wherein the telescoping screw has two parts and the first part is received within the second part.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 5 and 6 recite the limitations "said first part" and "said second part".  
  
There is insufficient antecedent basis for this limitation in the claim since they depend from claim 1 which does not reference first or second parts.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent # 6,425,720 to Kramer.

Art Unit: 3635

Regarding claim 1, Kramer teaches, in Figure 5A, a cage (12) that surrounds a screw (26) and allows the screw (26) to telescope [parts that fit and slide one within another] inside the cage (12). Figures 5A and 5B show the screw (26) has extended and not extended positions. Kramer shows in Figure 1, that the device (10) is embedded in a substrate (11) in the form of insulation (Column 2, Lines 57-58) which is a type of construction board. The fastener (10) allows the insulation to be attached to another member (Column 1, Lines 5-7) such as a stud.
